

John Sherman's Doctoral Advisees and their Dissertations

- Tobler, Waldo R. (1961) *Map Transformations of Geographic Space*.
- Willberg, Calvin G. (1965) *Problems in Establishing an Automated Mapping System*.
- Greenberg, Gerald L. (1968) *Map Design for Partially Seeing Students: An Investigation of White Versus Black Line Symbology*.
- Meihoefer, Hans-Joachim (1968) *The Use of the Circle in Thematic Maps: A Study in Visual Perception of Cartographic Symbol*.
- Kilcoyne, John R. (1972) *Pictography Symbols in Cartography: A Study of Efficiency in Map Reading*.
- Vanselow, Glen (1973) *Spatial Imagery and Geographic Scale*.
- Wingert, Everett A. (1973) *Potential Role of Optical Data Processing in Geo-Cartographic Spatial Analysis*.
- Delucia, Alan A. (1974) *The Map Interpretation Process: Its Observation and Analysis Through the Technique of Eye Movement Recording*.
- Turner, Eugene J. (1977) *The Use of Shape as a Nominal Variable on Multipattern Dot Map*.
- Ogrosky III, Charles E. (1977) *The Ordinal Scaling of Point and Linear Symbols for Tactual Maps*.
- Kelley, Philip S. (1977) *Information and Generalization in Cartographic Communication*.
- Taketa, Richard A. (1979) *Structure and Meaning in Map Generalization*.
- Hiatt, Charlette K. (1982) *The Function of Color Legibility of Linear Symbology on Maps for Partially Blind*.
- Buttenfield, Barbara P. (1984) *Line Structure in Graphic and Geographic Space*.
- Child, Jois C. (1984) *The Poetics of Cartography*.
