about the cover

"The cover design was created by Lou Cross. Lou is a cartographer and graphic artist with the Florida Resources and Environmental Analysis Center at The Florida State University.

The images used include digital photography taken at the Symposium on Maps and the Internet and a map generated through Cichlid visualization software.

The Cichlid software supports vertex/edge graphs, useful for modeling things like networks. The graphic used in this cover depicts the logical layout of the Internet's vBNS (Backbone Network Service). Cichlid is written and maintained by the National Laboratory for Applied Network Research (NLANR)'s Measurement & Operations Analysis Team (MOAT), located at the San Diego Supercomputer Center (SDSC).
